

old and forgotten name which had been dug out, but this is not the case and we therefore oppose the application.

Acknowledgement

We thank our colleague Jason Dunlop (Berlin) for linguistic corrections of the English text.

Comment on the conservation of usage of the specific names of *Scaptodrosophila rufifrons* (Loew, 1873) and *S. lebanonensis* (Wheeler, 1949) by the designation of a neotype for *S. rufifrons* (Insecta, Diptera)
(Case 3128; see BZN 56: 179–181)

V. Sidorenko

Laboratory of Entomology, Institute of Biology and Soil Sciences, Far Eastern Division of the Russian Academy of Sciences, Vladivostok 69022, Russia

The history and taxonomy of the species concerned and the purpose of Dr Bächli's proposal have been discussed not only in the published application but also in the recent revision of the *S. rufifrons* species-group by Papp, Rácz & Bächli (1999), which includes a description and figures of the neotype. In my opinion this application is completely satisfactory and I support it.
