OPINION 1914

Belemnotheutis Pearce, 1842, Geopeltis Regteren Altena, 1949, Geoteuthis Münster, 1843, Jeletzkyteuthis Doyle, 1990, Loligosepia Quenstedt, 1839, Parabelopeltis Naef, 1921, Paraplesioteuthis Naef, 1921 (Mollusca, Coleoidea): conserved, and the specific name of Belemnoteuthis (sic) montefiorei Buckman, 1880: conserved

Keywords. Nomenclature; taxonomy; Cephalopoda; Coleoidea; Jurassic; Belemnosepia; Belemnotheutis; Geopeltis; Geoteuthis; Jeletzkyteuthis; Loligosepia; Parabelopeltis; Paraplesioteuthis; Belemnoteuthis montefiorei.

Ruling

(1) Under the plenary powers the following names are hereby suppressed for the purposes of the Principle of Priority but not for those of the Principle of Homonymy:
   (a) the generic names:
      (i) Belemnosepia Buckland & Agassiz in Buckland, 1836;
      (ii) Atramentahus Buckland & Agassiz in Buckland, 1838;
   (b) the specific name belemnitoeides Buckland, 1830, as published in the binomen Orthoceras belemnitoeides.

(2) The following names are hereby placed on the Official List of Generic Names in Zoology:
   (a) Geopeltis Regteren Altena, 1949 (gender: feminine), type species by original designation Belopeltis simplex Voltz, 1840;
   (b) Geoteuthis Münster, 1843 (gender: feminine), type species by subsequent designation by Bülow-Trummer (1920) Loligo bollensis Schübler in Zieten, 1832;
   (c) Jeletzkyteuthis Doyle, 1990 (gender: feminine), type species by original designation Teudopsis agassizii Eudes-Deslongchamps, 1835;
   (d) Loligosepia Quenstedt, 1839 (gender: feminine), type species by subsequent designation by Regteren Altena (1949) Loligo aalensis Schübler in Zieten, 1832;
   (e) Parabelopeltis Naef, 1921 (gender: feminine), type species by monotypy Geoteuthis flexuosa, Münster, 1843;
   (f) Paraplesioteuthis Naef, 1921 (gender: feminine), type species by original designation and monotypy Geoteuthis sagittata Münster, 1843;
   (g) Belemnoteuthis Pearce, 1842 (gender: feminine), type species by subsequent monotypy by Pearce (1847) Belemnoteuthis (sic) antiqua Pearce, 1847.

(3) The following names are hereby placed on the Official List of Specific Names in Zoology:
   (a) simplex Voltz, 1840, as published in the binomen Belopeltis simplex (specific name of the type species of Geopeltis Regteren Altena, 1949);
   (b) bollensis Schübler in Zieten, 1832, as published in the binomen Loligo bollensis (specific name of the type species of Geoteuthis Münster, 1843);
(c) *agassizii* Eudes-Deslongchamps, 1835, as published in the binomen *Teudopsis agassizii* (specific name of the type species of *Jeleizkyteuthis* Doyle, 1990);

(d) *aalensis* Schübler in Zieten, 1832, as published in the binomen *Loligo aalensis* (specific name of the type species of *Loligosepia* Quenstedt, 1839);

(e) *flexuosa* Münster, 1843, as published in the binomen *Geoteuthis flexuosa* Münster, 1843 (specific name of the type species of *Parabelopeltis* Naef, 1921);

(f) *sagittata* Münster, 1843, as published in the binomen *Geoteuthis sagittata* (specific name of the type species of *Paraplesioteuthis* Naef, 1921);

(g) *montefiorei* Buckman, 1880, as published in the binomen *Belemnoteuthis montefiorei*;

(h) *antiqua* Pearce, 1847, as published in the binomen *Belemnoteuthis* (*sic*) *antiquus* [recte *antiqua*] (specific name of the type species of *Belemnotheus* Pearce, 1842).

(4) The following names are hereby placed on the Official Index of Rejected and Invalid Generic Names in Zoology:

(a) *Belemnosepia* Buckland & Agassiz in Buckland, 1836, as suppressed in (1)(a)(i) above;

(b) *Atramentarius* Buckland & Agassiz in Buckland, 1838, as suppressed in (1)(a)(ii) above;

(c) *Belemnoteuthis* Pearce, 1847 (unavailable as an incorrect subsequent spelling of *Belemnotheus*).

(5) The name *belemnitoeides* Buckland, 1830, as published in the binomen *Orthoceras belemnitoeides* and as suppressed in (1)(b) above, is hereby placed on the Official Index of Rejected and Invalid Specific Names in Zoology.

(6) The name *BELEMNOSPIDAE* Naef, 1921 is hereby placed on the Official Index of Rejected and Invalid Family-Group names in Zoology (invalid because the name of the type genus has been suppressed in (1)(a)(i) above).

**History of Case 2987**

An application for the conservation of six generic names for Jurassic coleoid cephalopods by the suppression of the unused name *Belemnosepia* Buckland & Agassiz in Buckland, 1836, and the conservation of the specific name of *Belemnoteuthis montefiorei* Buckman, 1880 by the suppression of *Orthoceras belemnitoeides* Buckland, 1830, was received from Dr T. Engeser (Institut für Paläontologie, Freie Universität Berlin, Berlin, Germany) and Prof D.T. Donovan (University College London, London, U.K.) on 19 May 1995. After correspondence the case was published in *BZN* 53: 253–260 (December 1996). Notice of the case was sent to appropriate journals.

Comments in support of the application from Dr Peter Doyle (University of Greenwich, Chatham Maritime, Kent, U.K.) and from Dr R.A. Hewitt (Leigh-on-Sea, Essex, U.K.) were published in *BZN* 54: 104 (June 1997).

A further comment in support from Dr W. Riegraf (Münster, Germany) was published in *BZN* 54: 184–185 (September 1997). Dr Riegraf also proposed (*BZN* 54: 185) that the name *Atramentarius* Buckland & Agassiz in Buckland, 1838 be suppressed to conserve *Belemnotheus* Pearce, 1842, and that the original spelling of
Belemnotheutis, which had recently been adopted by Donovan & Crane (1992) and Rieggraf (1995), be placed on the Official List.

In a reply published in BZN 55: 29 (March 1998), the authors of the application supported Rieggraf’s additional proposals.

The case was offered for voting in two parts. Vote (1) related to conservation of the six generic names in use by the suppression of Belemnosepia Buckland & Agassiz in 1836, conservation of the specific name of Belemnoteuthis (sic) montefiorei Buckman, 1880 by suppression of Orthoceras belemnitoeides Buckland, 1830, and suppression of Atramentarius (proposals on BZN 53: 257–258 and items (1) and (4)(a) on BZN 54: 185). Vote (2) related to the placement of Belemnotheutis Pearce, 1842, and the name of its type species Belenmoteuthis (sic) antiqua Pearce, 1847, on Official Lists (items (2), (3) and (4)(b) on BZN 54: 185).

**Decision of the Commission**

On 1 September 1998 the members of the Commission were invited to vote on the proposals published in BZN 53: 257–258 and 54: 185. At the close of the voting period on 1 December 1998 the votes were as follows:

Vote 1. Affirmative votes — 19: Bock, Brothers, Cocks, Cogger, Dupuis (part), Eschmeyer, Kabata, Macpherson, Mahnert, Martins de Souza, Mawatari, Minelli, Nielsen, Nye, Papp, Patterson, Savage, Schuster, Štys

Negative votes — 1: Bouchet.

Vote 2. Affirmative votes — 17: Bock, Brothers, Cocks, Cogger, Eschmeyer, Kabata, Macpherson, Mahnert, Martins de Souza, Mawatari, Nielsen, Nye, Papp, Patterson, Savage, Schuster, Štys (part)

Negative votes — 1: Bouchet.

Dupuis and Minelli abstained.

No votes were received from Lehtinen, Kerzhner, Kraus and Song.

Heppell and Ride were on leave of absence.

Bouchet commented: ‘My reasons for voting against the application are threefold. (1) While I sympathize with the intent of the authors to stabilize the nomenclature and usage of a number of long-established names, the authors themselves noted (para. 6 of the application) ‘the limited use of these names in recent years’. Moreover, the name Jeletzkyteuthis Doyle, 1990 had only been established for six years when the application was published and, in my view, hardly qualifies for conservation. (2) The Commission is asked to treat Belemnoteuthis as an incorrect subsequent spelling of Belemnotheritis when etymology, usage and consistency in formation of names ending in -teuthis all point to the opposite. (3) Finally, the Commission is asked to reject the name Orthoceras belemnitoeides Buckland, 1830 which ‘has not been used for very many years’ (but the application does not provide information on its actual usage), and to conserve the name Belemnoteuthis montefiorei Buckman, 1880 (and the application refers to 11 publications by nine authors to document its usage). I consider that the application contains insufficient information for an informed vote on this proposed suppression’. Dupuis voted for proposals (1)(a)-(b), (4), (5) and (6) on BZN 53: 257–258, but abstained from proposals (2) and (3) and also the proposals on BZN 54: 185. Minelli abstained from proposals (2), (3) and (4) on BZN 54: 185. Štys voted against proposal (4)(b) on BZN 54: 185.
