you please - what do you say to  
reply to Tampa F. for a day or two?

I have just bought Schindler's  
Mose Hebrew. - The Hebrew  
in Heb. certainly some how or  
other taking it off my hands -  
when I gen., whom father was  
intimating to Lucy Burdett Custer,  
addressed an adrost letter to that  
unfortunate lady, which pulled her  
quarrel money out of her pocket!

for Moreau & Weston. Then  
I shall buy or chance of receiving  
them? - In offer them cheap

My dear Gray  
I have received  
letters of yours - & left  
over to answer the  
former to increase  
& I do very few volumes  
translates - but I am  
so busy, & determine  
to not increase  
my trouble by writing  
up this early -

writing as to Foster  
She has been away  
for a month in the  
sea port, which

her much good. She would  
finish when completely the  
catalogue of my father's  
National correspondence, a  
fascinating job, which kept <sup>her</sup> up  
late at night, & tired her  
eyes & back. She was ambitious  
to do such a piece of work for  
me as my dear late wife ~~wanted~~  
to do - but I could do prevent it - but she  
is vain. In this house, which  
is surrounded ~~about~~ with culture  
in lawns & all parts of the  
country, it is enough for the ~~lady~~  
to attend to house-holds duties  
& the children. We are also  
engaged in a chronic struggle

will go in for Cherbourg I think if  
he gets on to ~~it~~<sup>it</sup>. The stiffness of  
the examination is being remonstrated  
against, & I think justly: for no one  
is allowed to come up again for a  
single subject, at which he may have  
failed: he must come up for all  
& this is not till a year has elapsed.  
Consequently he can do very  
well make no progress in his  
professional education. He must  
keep up all those subjects to  
examination pitch. The Diploma of  
the School of Mines is pretty stiff  
too, but not so comprehensive.  
Roper's health has been very good this  
past winter. - He keeps well ahead of  
his school. His progress is remarkable  
& is the admiration of all beholders. I think
