

ARNOLDIA

A continuation of the BULLETIN OF POPULAR INFORMATION of the Arnold Arboretum, Harvard University

VOLUME 1

APRIL 4, 1941

NUMBER 4

1941 SOURCES FOR RARE WOODY PLANTS. SUPPLEMENTARY LIST

MANY requests have been received for the last number of *Arnoldia* (Vol. 1, No. 2-3) and so many requests have come for more information of a similar nature that this bulletin is offered as a supplement. No more plant sources will be listed in *Arnoldia* this spring, but there are hundreds of names of other rare plants listed in the files of the Arboretum as being available from American nurseries in 1941.

It is truly surprising to note the number of different plants belonging to a particular genus which can be obtained after an examination of a series of catalogues. Particular mention should be made of the 223 lilacs and the 72 species and botanical varieties of roses. Not all are "rare" but because of wide special interest in these groups all available varieties in these two have been listed. The 25 available varieties of *Hibiscus syriacus* are also noteworthy.

It is suggested that in order to use this supplementary list properly, the information printed on pages 5 and 6 of the last bulletin be read carefully. The data there given applies equally well to the supplementary list, as well as to the nursery numbers appearing on page 7. After checking through the last bulletin, one nurseryman wrote a congratulatory letter, but expressed surprise at the absence of the names of certain nationally known nurseries which have advertised rare plants for years. He continued to note with satisfaction, that although the name of his own nursery was not given, yet in his 1941 catalogue he had listed over 100 of the species and varieties mentioned in that bulletin! We are glad to mention his nursery, among others, in our supplementary list as we have just received his catalogue.

However, it should be clearly understood that we have merely examined catalogues in the sequence in which they arrived; that we considered two or three sources sufficient for one species or variety; and that simply because a certain nursery is not listed does not mean it has no rare plants. Sometimes nurseries are tardy in sending their catalogues. As this number of "Arnoldia" goes to press April 1, certain catalogues that we would have liked to examine have not been received.

Like the previous list, this supplementary one doubtless has its defects, but if it helps the gardening public to obtain rare plants and so learn to appreciate them, then it will have served its purpose.

DONALD WYMAN

Additional Nurseries listing Rare Plants in 1941

36. Bay State Nurseries, North Abington, Mass.
37. Bobbink and Atkins Nurseries, East Rutherford, N.J.
38. Brand Peony Farms Inc., Box 408, Faribault, Minn.
39. Cherry Hill Nurseries, West Newbury, Mass.
40. Cole Nursery Co., Painesville, Ohio
41. F. & F. Nurseries, Springfield, N.J.
42. Farr Nursery Company, Weiser Park, Penna.
43. Joseph B. Gable, Stewartstown, Penna.
44. Gardens of the Blue Ridge, Ashford, McDowell Co., N.C.
45. Outpost Nurseries, Ridgefield, Conn.
46. Princeton Nurseries, Princeton, N.J.
47. Rockmont Nursery, P.O. Box 266, Boulder, Colo.
48. Upton Nursery Co., 4838 Spokane Ave., Detroit, Mich.
49. Weston Nurseries, Weston, Mass.
50. Wyman's Framingham Nurseries, Framingham, Mass.

Supplementary List

Rare Woody Plants listed in 1941 Nursery Catalogues

Buxus microphylla compacta 16	aurea 28
sempervirens angustifolia 26	Cotoneaster acutifolia villosula
arborescens 26	18
argentea 2	adpressa conglomerata 7
conica 26	ambigua 18
globosa 26	bullata macrophylla 7
handsworthi 18, 29	conspicua decora 7, 4, 19
oleaefolia 29	dammeri 18
rotundifolia 26	dielsiana elegans 5
suffruticosa albo-marginata	foveolata 18
25	glabrata 7
