

I'm giving special attention to grasses & sedges;
do not find much time to devote to other botan-
ical orders. I hope next year to make
a large coll. of plants in So. Eastern Texas.
What I collected this year were only in oc-
casional trips here & there.

Very truly yours

G. C. Neally

I will be here in Beaumont through this
month.

Dear Sir

I send in this mail a package
of specimens for name. I wrote you about
three or four mos. ago, and you kindly
agreed to give me the names of what I
might send. I intended to send them
before leaving the College last Oct. Took
them with me to Houston. While there
I made some arrangement with Dr. Joor
(Act. Commissioner for the Exposition) about
having some grasses & sedges on exhibit. I
sold him 220 specimens; making with those
he furnished about 300. He has had them
framed. So there will be a pretty fair exhibit
at the Exposition, of Texas grasses & sedges.

As to the specimens I send, A, B, C, D, E
& G, are from Hardin Co. up in the longleaf
pine belt. I gathered B & D in Apr. G in May
and A, C & E in June. F is common about
Beaumont in the swampy lands; in bloom
in April & May. H in bloom about here though
