

Dear Sir

Mr. K. has
for two years
private tutor
son (who has
Cambridge
summer) &
enough to
to you ahead
estimating the
of Cephalot
In the
You so oblig
wrote to him
reply - You
quite answer
what I

* The identical plant
though Mr. Duncanson has more taste
he likely more directly myself
to ask you for such information
as you may perhaps wish. But I must
leave you to some correspondence with
the facts and significance of the
with the facts.
You will be pleased to know
that the Torrey's *Chaparral*, * *Chaparral*
I have always been informed by
Mr. Duncanson that it is
the or Torrey's is there

to know - viz
Meaning & de
of Cephalotaxus
I should
inform you
undoubtedly
a new Edition
"Doronicus
Garden?" which
quite behind
in the New
Mental tree
being upon
place some
green alone
Mentioned by
which I &

Generally ready - Among them
I have also the Cephalotaxus
Mentioned by you as well as a variety
you do not mention, certainly I send
or the most of the genus. As
Cephalotaxus I esteem - I have seen
the most being much the most
beautiful as well as the hardest
as the others are not very hard
I have as yet given the description
of this genus, I ventured to
trouble you

growing up
place perfect
about 8. or 9.
high -
I have
had the impression
that this plant
sent to W.D.
by Dr Torrey
for a name
He (Downing)
it Torrey, &
he kind enough
before me
is so? - I
the J. Muir
however in
You will
very troubling
this matter

Sargent, Henry Winthrop. 1858. "Sargent, Henry W. June 18, 1858." *Asa Gray correspondence*
