

Cambridge Mar 2/76

My dear Sir

Will you be kind enough  
to tell me what is the present  
name of a plant called by  
Abbot (who flourished in Georgia  
at the end of the last century &  
early in this) Euphonia tuberosa.  
It is a southern plant, but Chap-  
man gives only herbagea

By doing so you will greatly  
favor

Yours truly

Saml. H. Cuddihy
