

MARTIUS' FLORA BRASILIENSIS.
(PROF. DR. EICHLER.)

My Dear Professor Gray,

Your kind letter of the 2nd July with the check of 664 Mark, as payment for the fascicles 70-72 of the flora Brasiliensis, has duly reached me and I thank you very much for it; the money has been immediately forwarded to Munich.

These lines will probably reach you on your great journey with Mrs. Gray and Dr. Hooker, of which you wrote me the last time. How I envy you! but such splendid excursions are only possible in America. At all events I wish you luck, health and good spirits.

The matter about Grauw's successor is as yet undecided. They want to divide the place; one chair for physiology and one for experimental botany with the garden, but this arrangement must be first granted by the chambers ~~which~~ ^{and} will not till next Easter. In the mean time old C. Koch

near

arranges the garden: facts on which
are taken in consideration for the physio-
logical chair. The latter has just published
his great book about anatomy of vascu-
lar plants (third part of Hofmeister's
handbook). ^{is not}

I hope my diagrams printed still
this year, being now able since a few
weeks to work again.

My best regards to Mrs Gray and Dr.
Hooker. Believe me, Dear Professor Gray,
ever

Yours

very truly

A. W. Eichler

Eichler, August Wilhelm. 1877. "Eichler, August W. Aug. 10, 1877." *August Wilhelm Eichler letters to Asa Gray*
