

Wolm, 28. Feb. 1882.

My dear Professor Eng,

Professor Godale has had the kindness to write an extract out of my paper on the female flower of *Coultia* for Silliman's Journal, and has sent it to me in order to look it over and then forward it to you. The extract is quite correct, though I should have desired a few points touched, on which I put some value; perhaps Dr. Engelmann, to whom I shall write, will give a complete translation, what will be the best.

Professor Godale has been here for a few weeks, but I only saw him the last day for half an hour.

I sent this paper and another too ~~also~~ to you. Dr. Eng, some time ago.

He promised me to come again next
year and I hope to see him then
often and long, as he pleased
me greatly. He is at present at
Tübingen, to where I have sent him
your parcel.

fascicules 35 of the Flora
Gravil. will be in your hands by
this time. It was too late to send
it by Seydlich's Bachhausen,
as you desired; but from the next
time it shall be done.

Believe me, dear Professor Gray,
ever

Yours

very sincerely
J. W. L. Müller

Eichler, August Wilhelm. 1882. "Eichler, August W. Feb. 28, 1882." *August Wilhelm Eichler letters to Asa Gray*
