Davenport, Iowa, March 14th 1884

Dear Dr. Frey

Since writing you

I have received Synp. H. Supplement
also your letter in returning from
Washington.

Of course I was a little disappointed
(though not surprised) at your
failure to meet Senator Stanford,
though partly an accident. I know
it is not always easy to reach
him. — but it may be just as
well to try a flank movement.
I sent Supplement &c at once
to the binder so as to have
few petals at my fingers end.
I see you hardly touch upon
freener for now. but accept
many of his sp. now — and refer
the rest to —
I have not heard how freener
takes it

In his last letter he says that he finds Microum Pung.
mixed up with M. Lindleyi in S Cal collections.
which he says it "very closely resembles, but from which
I can show you how to distinguish it at a glance."
He also met with it near Mt Diablo 1884. but overlooked
its character -

I have just heard from Pungle about to start
for Mexico. - We have about concluded to start
from here first part of April stop over a few
days at St Louis and down the river by boat to
New Orleans. - Then stop over at El Paso & perhaps
run down to San Pungle at Chihuahua. - So on
to South Cal = and then select some quiet sea side
for the summer to return here in the fall.

I shall find out at St Louis what is the prospect
of getting the Engel Herb. in accessible quarters.

The Curator D.C. Herb Rob Buser writes to see if he can
get the loan of Engel. Salices & Populus for his
prepared monograph. - I suppose this might be arranged
with few Engel consent. - but how could they be
best sent if so decided on.

I have been dipping down into the lower order frammon
etc to get them arranged and named.

What do you think of peenes new Ranunculaceae from
R. intricatus fr ?

Yours truly
C.C. Parry
