

New Haven. Aug 26.

Thursday. 2. P.M.

Dear Dr. Gray.

I got home Tuesday night, with my boys, leaving wife & daughter at Holderness. I have distributed up to NO. 58 of Geher's things - (very nice plants too) There are 105 species all numbered for distribution, & a few packages of "mixed" things. I shall get through by Friday noon, & express your sets. (as called for by your letter of 21st inst.) Friday P.M. - They ought to reach you Saturday.

Geher evidently collected for 16 sets. As a few

things run over, I make
20 sets in all. the best
four very scanty. only 2 things
thus far fail of 16 good
specimens.

no. 9. Malvaceous - goes ^{up} to set
11 only.

no. 48. Asclepiad ^{up} to set 8 only.

Fruit is collected in many
instances as well as flowers.

Thanks, that both you
& Mrs Gray are so good
as to miss us at this
time.

I will - unless you direct
otherwise - send sets as follows

- | | |
|---------|--------------|
| Set. 1- | Baron Eggers |
| 2. | Kew. |
| 3. | Dr. Gray |
| 4. | Eaton. |
| 5. | Kew. |

I put odd forms, as lobed
leaves - bits of fruit - seeds
etc. mostly in sets 2 & 3.

Ever truly yours

Samuel J. Eaton.
