

Philadelphia, April 5th 1872

Prof. Asa Gray, Cambridge.

My dear Gray,

I received, yesterday, a letter, stamped Cambridge,
the direction of which in a writing quite familiar
and very dear to me. I opened it with haste,
and, what was my disappointment! it was not
from my distinguished friend. Be not so painful now
of your epistolary greetings; I have not received any
letters from you since an age, and I am uneasy
about your and your good lady's health.

As for me, I have been most miserable, since 6 or
8 months; my poor son has been suffering from that
horrible disease called rheumatic gout and is not
well yet. His wife has been sick all the while,
and his mother in law, who resided with us, has
died of old age and consumption.

Mental anxiety, sleepless nights and want
of exercise, so useful to me, have prostrated me
completely, since six weeks. I have lost my strength,
my appetite, my sleep, and made a broken old
man, although only 79 years; I can scarcely walk
nor write. Dr Torrey has been here, several days.
I have not been able to write to him and let him

The plants have not arrived yet

Know that I was sick in bed and would be
very glad to see him.

However, I can say that we are all doing
much better and begin to take ride and make
promenade.

My best regards to your lady and to James' family
and compliments to Mr Ch Wright. Now let me know
what I owe on the Oregon plants.³ Hall told me
that they would be 8 cents a specimen.
Draw on me for the amount, or wait a few
days, when I can write a decent bank check.

Your very cordially

E. Durand

1337 Spruce Street, Ph^a

These Oregon plants, other than I am expecting
above 7000 that form my new herbarium are
destined to the botanical gallery of the garden of
Plants of my poor Paris - very fortunately, my former
herbarium has not suffered from the Prussian
Bomb, during the siege.

Adieu!
