

"Pines" May 10 - 80 -

My dear Watson -

Your pump came out this evening - and supposing that they were the most pressing, I by reading those must put off sending a "swad" of copy until tomorrow.

"*Distichlis maritima*"
"var - *spicatum*;" should it not be var. *spicata*?

Opposite *Eragrostis reptans* here is a ringed *Eragrostis* (P) - the meaning of which I don't understand.

In giving collector's names some are enclosed by () and some are not. So far as I can see the omission is where the name ends a sentence - If this is the rule then Brewer under *Lophoceros* should have them -

The smallness of the hour accounts for the size of the note Truly
