

Flagstaff. Ariz. Aug 22. '84

My dear Dr. Gray.

Yours of the 15th at hand
with publication enclosed. Many thanks.

The "Flora" has not yet arrived to our
great surprise, since you must have despatched
it long enough ago.

Do not trouble yourself about it. It
may come in any day but we cannot re-
port for two weeks - being just off this morning
for the Grand Canon at its upper end, about
65 miles away.

We ascended ^{of the San Francisco Mts. over 12,000 ft alt.} Mt Agapitz, last week, found
some fine things near to us, (Colorado flora,) and
enjoyed a thunder storm beneath us.

I enclose a little Deneiro from the summit.
In volcanic scoria, all the plants low and
decayed, some glaucous, others not, mostly more
than one headed, collected Aug 15. '84.

Harrington
