O'Belleville

Nov. 35th 1872

Prof. J. P. James.

My dear Sir,

Accept my thanks
 for the remittance received.
 I am sorry that there are so
 many mistakes in spelling
 in the Catalogue. I shall do
 better next time.

I purpose sending
 to you the remaining species of
 mosses not before sent to you
 and shall do so very soon
 as I am about to send a parcel
 to Pr. Gray. You will kindly
 confirm my names or correct.

copy — Cambridge April 10 1879
Prof J. Macoun

My dear Sir —

I have examined all the Mosses contained in that large package which I received a two weeks ago from you

You will observe by the Enumeration that I report only those that were not named but simply numbered on the packets, also those that were incorrectly named. Those that were properly named I have not reported

I have critically examined all under the microscope with very few exceptions of those which were unmistakably recognised

I am sure of my results

I hope my report will be satisfactory

In your favor of Nov. 25 you asked me to send a list of species that I desired and you could send me specimens if you had them

I have now to thank you for a number of those contained in my list of desiderata which are in the large packet reported upon

viz — Nos. 2599 — 2594 — 2639 — 2644 — 2647
2651 — 2664 — 2693 — 2696 — 2723 — 2732
2746 — 2767 — 2733 —

Now there are on that list which I furnished others which I would be under obligations to you for if only in small examples — several of the rest I have not seen

Very respectfully & truly yours

Wm. P. James
