

Columbus Oct 12th. Nov 83.

Dear Prof.

Schimper sent us as new species under
the name of *Diceanum pallidum* a specimen which
Tullivant & myself recognized as our *D. spurium* which
is very slightly different from the European form.
That is No 85 of the Mus. For the other, the
synonymy should be *D. condensatum*, Haw as
in No 86 of the Mus., erasing var. *condensatum*
or legimus. var. *condensatum* has of the author without reference.
which is only indicated upon labels in Tullivant's
herbarium? or at least in my own and as you say
can not be mentioned.

Very truly yours
V. Degeneray
