Smithsonian Institution,

Washington, D. C. May 31 1858

Dear Professor

The works we want
are the results of travels of Spix
and Martius in Brazil, although
I am not sure that Martius
had much to do with the Zoolo-
gical portion. They consist of

Avium species novae (q. Brazil)
Zool. folio - Descriptiones Brasiliensium
Species novae; Reptiles et Testudinum.
Sp. novae; and Animalia nova sine
Species novae Lacertarum - Finally
Piscium species novae.

Of these the first or
birds is most important to us

I will send the list
you want of the vols al-
ready forwarded to you when
that as soon as I can make
it out, and will see that
he gets P. R. R. and Ermeny

Sincerely yours
Dr. Asa Gray
