

Valleypres. Vaud. Switzerland.
July 8th 1875.

Dear Sir,

Thinking that you may
be anxious about the parcel of "*Epilobium*"
you were so kind to trust to me,
I take the liberty of enclosing
first proofs of *E. luteum* Turck &
E. molle Turck, which I have
been able to have figured, thanks
to your fine collection. -

The figures are not good and
not what I wished, but I had
them made by the best artist I

As soon I have finished with your parcel of "*Epilobium*" I
will return it to Cambridge. -

could find in Paris. - If nothing happens I will have figured:

E. suffruticosum Nuttall

E. obovatum Gray

" *minutum* Lindley.

" *paniculatum* Nuttall

" *coloratum* Muhlberg.

" *squamatum* Nuttall.

and a few new species, but for which I have but poor samples. -

I cannot make out what are
E. densum, *leptophyllum*, *divaricatum*,
tenellum Rafinesque. -

M^r Boissier begs to be remembered to you, he has just completed the

printing of *Flora Orientalis* ~~III~~ vol. to *Diogenes* which will appear in a separate fascicle with his ~~III~~ vol., in the course of the summer. -

I very much trust that these lines will find you health much improved by the fine season and that you can again begin to work on your favorite subjects.

I have sought my most sincere thanks for your very great kindness.

most respectfully yours

William Barlow
