

Sierra Valley. Cal
June 29th 73.

Dr Asa Gray,

Mr Lemmon is off
in northern Plumas county
botanizing & when he left, he
desired me to reply to such
letters of his as needed prompt
attention - &c

Can you send him
a gram of that drying paper
such as you sent last fall?
I ordered it in S.F. but it is
not to be found in the city &
if you will forward it immediately
it will probably arrive before he
moves off on an other expedition.

You remember his presses are
of such size that Harper's weekly
answer for folios & the driers
should be the same size. di
mension.

I am Lemmon's friend;

for whom you honored so highly
with the *Corydalis* found in Big
Meadows. for which I am
inexpressibly grateful to both
you & him -

Mark the pkg -

J. G. Linnon

Truckee, Cal

Care of J. Olsen, Sierraville.

It is really necessary that Linnon
should have the paper. He
lost a part of what he had in
the spring - through no care-
lessness of his however.

Very respectfully yours

E. L. Case
