

# California Academy of Sciences.

Post Office Box No. 2247.

San Francisco, Sept 14. 1885

Dear Dr Gray.

I duly received the papers you kindly sent us and am trying to get the rest through the Antiquarians. I send you our list of desiderata in *Eriogonum*, you see it is a long one, and I shall be very thankful for fragments of all of them you may have to spare. I have one new species which we will send you our next package.

*Zostera E. panduratum*. Watson, ever published " *gracillimum* " and if so where

— found on the beach between San Luis Obispo and Santa Barbara, a plant which I supposed to be *Zoster a marina*. — unfortunately in our uncomportable progress it was lost in the driers and I fear we shall not soon collect it again. If you can send me a small specimen I will be able to verify my impressions concerning it.

Please present my thanks to Mr Watson for  
kindnesses rendered.

Will you kindly inform me whether  
we can purchase desecrate from Dr  
Edward Palmer?

Respectfully Yours.  
Mary K. Curran.

Ab. 14 Arizona plants 1876  
348 sp. - \$ 25.00
