My dear Gray

The printing Genera Stantonum
is now so far advanced that I can see that
the volume (xxi) will be within a very few
pages more or less of the same bulk as
vol. II. I shall therefore fix it at the
same price as per enclosed memorandum
I sell single copies here at cash price or
if two doz or more copies are taken at one
I give them at trade price - in your case
there will be a small extra charge for
expenses to Liverpool and there as I suppose
the best way to send them to you will be as
before in a box from Liverpool - I have
great difficulty in getting on the porters
who only give me one sheet per vol. and the

Index is always very long preceding Vol I
 I cordially hope to get the part out by the
 end of March so that I would be obliged to
 you now to let me know what number
 of copies you take for your friend There
 are now six sheets in type of which I have
 corrected the proofs but have not yet had the
 revises or clean copies - and there will be
 about four more besides the index which
 will fill two sheets - all is written out for
 press and only waits the printer I am
 very thankful for having been able to do
 this much for my shortness of breath gains
 much upon me and interferes much with
 my working powers

Yours very sincerely
 George Beattie
