Dr. R. C. Foster,  
Gray Herbarium of Harvard University,  
79 Garden Street,  
Cambridge, Mass.

Dear Dr. Foster:

Dr. Howard has turned over to me the four unmounted specimens of Verbenaceae which you so kindly sent him for me. I assume that I may keep the specimens and thank you sincerely for them. I am always delighted to see more material of this group and of the eriocauls of the world. You need never ask my permission to send material of these groups. The more the better.

My determinations are:

Curran 207 -- *Lantana canescens* H.B.K.  
654 -- *Lantana robusta* Schau.  
212 -- *Lantana fucata* Lindl.  
✓ Shepard 211 -- *Lantana montevidensis* (Spreng.) Briq.

With kindest regards and all best wishes, I beg to remain,

very sincerely yours,

Harold N. Moldenke,  
Associate Curator

Curran, Hugh McCollum and Moldenke, Harold N. 1948. "[Correspondence with Embedded Determinations]." *Plant lists : Brazil, Venezuela, and Curaçao*
