Mr Davenport

Dear Sir

I reply thus early
to your kind letter received
last evening - because I want
to - and because I expect
to be allowed by the Dear Lord
to go home in a day or two.
I have sent to my kind Physician
the Catalogue of W & Fickers
by yourself - he already has
Robinson's - and also a
copy of the part of your good
letter containing information
interesting to him - He
is just now suffering from
hands hurt in an operation.
How well I know how it hurts
to be laid aside from loved
work - God grant his sufferings
may be short. He has some fifty

varieties, could you help him?
in collecting more?

The recreation found in that
study may do much for
him - I will send you his address
and perhaps you can write him
and quite likely you may
know him as he is from
your City - Dr. J. G. Perry

113 Madison Avenue
New York
N.Y.

If in my fern hunting I can
find any specimens which
will be of use to you do let me
help you - I go often into the woods
at home with my children
and can easily send you
what we find. I cannot
analyze very well alone but
you can do that part. My five
children have so far interfered
with brain work to a degree - but
I hope soon to study again.

Should you wander to Syracuse
do call upon us -

Yours respectfully

Frances J. Myers

I wish to pay postage on ferns and
also for another copy of your catalogue
