

confusion -

I have in recent cases put the families together, in bundles, but made no further arrangement, but there are frequent interlopers ~~from~~ from other families in each bundle - some few are not arranged at all.

I put in a package of Terms for Eaton which please send him - I have not put it up properly for carrying by express, as I thought you might wish to see them before they go to him -

San Francisco Cal
April 2nd ¹⁸⁶⁴ 1864

Dear Gray
I send by the steamer of today a box of plants, (Express Paid) by Express - "Slow" to ~~the~~ your address, containing a set of all my past years collections, except Mosses, Ferns, Conifers, Barks, & Carices, together with my field notes on the same. In addition to my own collections, I send some collected by

H. N. Bolander Esq., near
this City, & Clear Lake,
also some by collected by
Dr. Wm. Hillebrand of Honolulu
who spent some time in this
State last summer. These
were furnished me by Mr
Bolander.

Also some collected
by W. H. Holder Esq., collected
near Oakland, also received
through Mr Bolander.

also a few collected
by H. J. Bloomer Esq near
Virginia City in Washoe.

The notes were copied
from my original notes
and I have looked over them
and made any corrections
& additions that may
seem necessary, all the

Specimens collected
by myself except a very few,
are from the region of the
Sierra Nevada, the
altitudes given are ^{supposedly}
exact for botanical purposes,
being the rough calculations
from our ~~to~~ barometrical
observations, and correct
within a few feet.

In my notes, especially
where the specimens were
collected by others, I find
that sometimes a number
~~has~~ been repeated, but I
think not often enough to
create any serious

Brewer, William Henry. 1864. "Brewer, William H. Apr. 2, 1864." *Asa Gray correspondence*
