

P.S. Please ticket
with determination with
the specimens, in case
I am in much trouble.

SHEFFIELD SCIENTIFIC SCHOOL OF YALE COLLEGE,

New Haven, Connecticut, Aug 12th 1874

My Dear Dr. Gray,
I have just unpacked
my bundles, and send
by express to-day, a
package containing it.

II

Such bundles as I can
find marked Brachinae
and Hydrus, just as
I find them - It seems to
me that not nearly all
of either is there, but it
is all that I find - Is
there not a bundle or two

in that little room
up stairs? -

II.

A few specimens that
were out of place, in
bundles marked "orders
& cases," & "Monopet.
Inserunda" - Some of
them you evidently have
seen, others not - I have
left in a few papers not
of those orders, because I
think you have not
seen them & may want
a specimen.

III.

I have put in three
packages of these plants
bought of Bolander
that you wanted to
glean from - take such
as you need for your
herbarium and then
send back the rest - Please
keep these separate from
the other specimens, &
with a label so that I
may know them. - I
expect to see you in
Hartford -
