N. L. BRITTON, Ph.D. Librarian

Madison Av. & 49th St.

New York April 15, 1888.

My Dear Doctor:-

Will you tell me what you think of enclosed *Sisyrinchium*? Note please the <sup>umb</sup> ciliate and capital stems. The flower was dark purple when fresh. It is from Texas and I will try to get you more. Please ~~return~~ <sup>keep</sup> this and I will send you its locality when I know.

Is there really any truth in the story that is going around that Prof. Coulter is to take Dr. Gray's professorship? I had never for the moment thought of any one but yourself in such

position but it has been mentioned by some  
and I believe the newspapers had it.  
Are you well supplied with plants from  
Portugal and the Azores? I am daily  
expecting a consignment from the *Peisadade*  
*Proteritana* and will send you the duplicates  
when they come if you wish them.

Very Respectfully Yours,  
N. L. Britton.

Britton, Nathaniel Lord. 1888. "Britton, Nathaniel L. Apr. 15, 1888." *Asa Gray correspondence*
