

Dear Mr. Drase:-

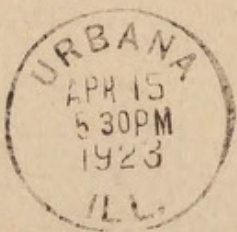

Urbana, 14 April, 1923

Thank you for the note about Pentstemon which I shall incorporate.
In going over my ms. I have found a few more questions for you. M. L. F.
has persuaded me to keep the vars. of Calamagrostis canad. (which I at first
thought best to include), and I should be glad if you could tell me whether the
following are the type or vars.: Milau, W.D. (1916); Lane & Burlant Grant, I.R. Churchill
(1889); Madison Spg. A.P. Chadbourne (1884); Carrington Rd. Drase (1884); Tuckerman Rav.
I.R.C. (1889); Steebun Drase (1883, 1909, 1913). * I haven't this.

Have you any typical Carex echinata? What have you of the vars.?
M. L. F. thinks Rosa lyoni no good; what would you be according to
the manual treatment? = R. prunifolia perhaps.

I have gone through the MS. of the Flora, cut up and rearranged it and in-
serted common names and synonymy, to make it more useful. The work is
nearly done, when I put in a few lines on some of the more complicated things.
Spring comes slowly, but we have had dandelions in bloom for a week now.
Much reading of proof in my Cicero to spice my work on the Flora - and to
delay it! With all best wishes, as ever,

A.S.P.

THIS SIDE OF CARD IS FOR ADDRESS

Mr. Walter Davis
29, Brewster Street
Cambridge
Massachusetts

Pease, Arthur Stanley. 1923. "Pease, Arthur Stanley Apr. 14, 1923 [Postcard]."
