

Thanks for your remittance - all right.

Charlotte, Vermont.

17, April, 1890.

My dear Mr. Kane:

At last I am through with another great distribution - 20000 specimens - and without going quite crazy. So I have undertaken today to make up for you a little parcel of Western plants, species of the new Manual, which I hope will be an acceptable return for the book you were so kind as to place in my hands.

Using it in this way I have conceived a great admiration for it; and I have a feeling that it would be a pleasant thing to do. To use it in going over our home flora again. But that pleasure is not for me, while my legs are good.

Yours faithfully,

C. G. Pringle.

I got *Carex ciliolata*, v. *imposita* in S. Canada; and the last duplicate left my door some years ago.
