

Dear Mr. Bean - I had occasion to go up
to your cottage yesterday (Monday) and while there
I looked at the Minimum temperature as recorded
by your thermometer - 28° below zero! I think
very likely that record was established last
Wed. which ~~is~~ the coldest day we have had.
Strangely enough too - a couple of fellows spent the
night on the top of Mt. Washington and it was 8° above
up there while it was from 18° to 40° below here in the
valley. Hope you are well and enjoying the
snow. Older people tell me we don't have winters such as they
used to have and I guess they are right for none of them ever
