

## THE AMERICAN MUSEUM OF NATURAL HISTORY

77TH STREET AND CENTRAL PARK WEST

NEW YORK CITY

DEPARTMENT OF BIRDS

FRANK M. CHAPMAN, Sc.D., CURATOR

July 15, 1924

Professor J. Franklin Collins  
United States Department of Agriculture  
Brown University, Providence, R. I.

Dear Professor Collins:

I am very sorry indeed to have been so long in answering your letter of April 7th, and the information you desire certainly comes too late for use this season. I did not return from Central America until the end of April, and I was ill for seven weeks after that; so that I am only now beginning to catch up on my personal correspondence. Inclosed you will find a list of the birds which I observed last summer in Gaspé, which I trust is what you wish.

Perhaps Dame Fortune will smile upon me sufficiently to enable me to see you at a meeting of the New England Botanical Club next season, or to be associated with you again on a field trip.

With best regards, I am

Sincerely yours,

Ludlow Griscom,  
Assistant Curator of Birds.
