

Pror. Dec. 2. 1894

Prof. D.C. Eaton

Dear Sir:-

Your favor of Nov. 22 d.  
at hand. Your suggestions and criticisms  
are greatly appreciated. <sup>Many thanks for the slides.</sup> I enclose <sup>two</sup>  
more Sphryna for you to look over at  
your leisure. I think 886 must be  
the true papillosum, but find <sup>some</sup> ~~most~~ of  
my packets labeled there prone to be  
imbrications. Keep the ~~enclosed~~  
plants & labels if of any use to  
you. I also enclose ~~some~~ <sup>my</sup>  
~~own~~ pencil notes to see ~~if~~ <sup>if</sup> they compare  
~~with your own~~ if they differ materially  
from your own observations.

Very truly

J. F. C.
