

ARNOLD GREEN,  
Attorney at Law,  
43 NORTH MAIN ST.,  
PROVIDENCE, R. I.

Providence Aug 22  
1895-

Dear Sir

Thanks for your letter of Aug.  
18.<sup>th</sup>

I have been on Conanicut twice  
this summer once I walked up  
the W. road from the ferry to the  
Windmill hill then across to the  
E road and down to the Dumplings  
and twice diagonally across the  
island. The other time I walked  
from the ferry up the E road to the  
park at the North end of the island  
and down the W. road to the ferry  
I only saw the Jasione at the  
place on the N. Hopping hill of the

We road just S of the swamps at  
the N. W. part of the island. There  
the fields on both sides were blue with  
it and the road borders also. It  
seems firmly established in all these  
fields are ploughed for corn or pota-  
toes but very scarcely established

What struck me most was the  
growth of pyrenia the moss about  
the N. end of the island and  
the Mikania which lined the  
roads on the E. (west road) side  
in the low land N of Windmill  
heel

Very truly  
Amelia Green
