Providence R.I.

My dear Sir -

With this is sent a check list of American weeds that while large is for you compare. For example while looking up species for you to look out for in Rhode Island I found two not upon the list that I should like to have you get, namely Chrysopsis falcata and Polygonum annuus. Of these I should like at least fifty good specimens. You may send a less number (three or more) of Veronica serpyllifolia, Scutellaria autumnale and Lycopus angulatus.

The R.I. Exp. Station at Kingston has through Professor Kinney recently ordered a set of my First Century of American Weeds. I wish you might see the collection.

I shall be glad to hear from you at any time.

Yours sincerely
Byron D. Halsted
