

MOUNT PLEASANT HOUSE

WHITE MOUNTAINS.

29 July 97

Dear Mr Collins

I have your letter of
the 25th with notes
on the Jay Loria spec-
imens. I am very

much interested in
your investigation,

I did not have time
to make as thorough
an examination as I
would like to have
done of all the specimens
in the list, and now
that I am away
from home I shall

have to leave the matter
till my return.

I have sent some
to Farlow as *Tayloria*
serrata & he sends
me back word that
his kept was *Tayloria*
terrestris, or appeared to
be that.

I shall submit it
all to him in the fall.

I have been collecting
up here, but have
not ventured to do
much in the line of

naminy things: the
mosses I think are
extremely well fruiting
this season.

We have not yet been
to the summit of Mt.
Washington, the weather
has been so threatening.

Very truly yrs

Geo. G. Kennedy

Kennedy, George G. 1897. "Kennedy, George G. July 29, 1897." *James Franklin Collins correspondence*
