

NEW ENGLAND BOTANICAL CLUB

740 EXCHANGE BUILDING

BOSTON, August 11 1898.

Dear Mr. Collins,
I enclose the blanks asked for. I hope they will catch some names, for the returns are coming in very slowly now. We must have fifty more names before we can go on with any certainty of paying our way, - and the weeks are passing on!

On a recent trip to Mt. Desert I secured a moss which seemed new to my list. Dr. Kennedy thinks it is *Pottia littoralis*. Perhaps this may interest you.

We are to have a special meeting of the Club next week, probably on Aug 19 8. P.M. to meet the members of the Bot. Society of America. It will be informal, - a "smoker". Notices will be issued later.

Yours haste

Sincerely

Edw. L. Rand
