

Jan. 29, 1911.

Mr. John L. Sheldon,
W. Va. University,
Morgantown, W. VA.

My dear Mr. Sheldon:-

Some few years ago I sent you a list of names of the mosses you collected in eastern Connecticut in 1900 and 1901, so far as I had named them. Recently I have been going over these mosses again for the New England Botanical Club and clearing up the doubtful and unnamed ones so far as I could. In a few cases I found it necessary to change names. As you will doubtless be interested in the revised list I am inclosing a copy which I made for you.

I have taken no pains to give the latest names or the unquestioned correct authority for the name, but I think there will be no misunderstanding as to just what species is meant.

Thank you for the two hepatics which came to hand a few days ago.

Very truly yours,

Collins, J. Franklin. 1911. "Collins, James Franklin Jan. 29, 1911 [Collins to J.L. Sheldon]." *James Franklin Collins correspondence*
