

Cambridge, Sept. 5. 1865.

My Dear Wright,

I have nothing from you since I last wrote, - nor have I any thing from Gay, so I suppose that the plants are not yet shipped hither - but I presume will be before this reaches you. Fendler is here, & we can take care of them.

The Bostonians are getting up a line of Steamers direct to Havana - which will be handy for us, and save many stages in New York. Let Gay take notice.

Dear good Sir Mrs. Hooker is dead - of diphtheria - on the 15. Inst. - 6 weeks over 80 years. I have no news yet from the family; but I learn indirectly that Dr. Hooker is sick - a gastric affection; I do hope it is

nothing dangerous.

To-day came from Ginkgo  
the 1<sup>st</sup> sheet (16 pp.) of  
"Catalogus Plantarum Buben-  
sium" - 800 - 1850

a sheet of

"Diagnos. novae Euphrasie  
aus Cuba" - Char. & n. sp.  
to anticipate C. Müller &  
Gussone. "Let 'em rip."

I Newland, on a new  
genus of Palms, Gaussia  
principis, Palma montana  
lecta a Ch. Wright; n. 3224.

As these sheets were not  
sent to me in duplicate  
I conclude that a copy  
is mailed direct to you, through  
Gay. Let me know how this  
is. I right not to spare my  
copy, as I want to collect some  
times, with the specimens.

There is a Limaria Sauvallii  
(1875) & an

"Asimina Blainii" (1103.  
(olim Urania neglecta, Species  
Cl. Blain, Botanico Havanae  
si, Ricata.

I am sorry to see that  
when he has given Diagnos  
in his printed papers in Gitting,  
over Owerdip, he does not  
repeat them in the Catalogus-  
-making that less complete than  
it should be. -

He has "overd up" in vicca,  
L

It is awful hot here -  
You are better off in  
Cuba.

I last week sent your  
brother \$200 more.  
Mrs. Gray only pretty well.  
Ever your cordial A. Gray

Gray, Asa. 1865. "Gray, Asa Sept. 5, 1865." *Charles Wright correspondence with Asa Gray*
