

GRAY HERBARIUM OF HARVARD UNIVERSITY,

BOTANIC GARDEN, CAMBRIDGE, MASS.,

June 23, 1904

Dear Dr. Robinson:

Here are the more important
fact-notes slightly altered so that they
can be used as padding this summer.

I will call at Wheeler's on my way
home tonight and attend to Evans' plate.
They always manage to make some blunder.

Blankinship has just been in to
say good-bye and to express his thanks for
the opportunity to work he has had. He
has been in a hospital until this morn-
ing where he had an operation which
promises to make him more energetic, and
he thinks quite well. He sent his wife
to visit her home and went quietly to
the hospital, "for no one could do anything"
for him, he says, so he did not let us know.

I ~~promise~~ am apparently to have good care this
summer on three of the Gaspé rivers. Messrs.

Cabot and Richard leave tonight for the
Grande Rivière and I shall reach there
Wednesday night to share their camp for
four days. Mr. Richard has secured
me a letter to the proprietors of the St.
John's or Douglas which comes in near
Gaspé Basin, and Mr. Murray Kay of
Haughton-Mifflin's invites our party to
use his fishing lodge on the Bonaventure.

These are three of the large rivers having
their sources in the Shickshock Mts., and
I think we are very fortunate to be so well
provided with convenient places to work.

Eaton has just sent over his
material of Batr. trebrosum. It is
a characteristically Eatonian lot, and I
have put it up stairs to await your return.

The Club specimens are all cased in the
room upstairs & many of the inserende
are now in the poison cans.

Callins telephoned today to say that he couldn't
come to Rhodora meeting tomorrow, ^{as he seemed to expect one} so I have
notified the others that you are away & there
will be no meeting until further notice.

Sincerely yours, M. L. Truand.

Fernald, Merritt Lyndon. 1904. "Fernald, Merritt Lyndon June 23, 1904 [Fernald to B.L. Robinson]." *Merritt Lyndon Fernald correspondence*
