LAWRENCE, KANSAS.

November 24, 1911

Professor M. L. Fernald,
Cambridge, Mass.

Dear Professor Fernald:

I am extremely obliged to you for the information contained in your recent letter, as all you have said makes me much surer of the conclusions reached by me, while your photographs of the interior show a surface strictly in conformity with that of the uplands nearer the coast.

I am very glad to accept your kind offer of prints from your negatives and I have marked on the back those that I should like to have; but I of course insist upon paying for them and when you send them to me, kindly send the bill for the work. There are one or two that I possibly may some time wish to publish and I wish to ask your permission to do so should I ever get around again to the Newfoundland physiography.

Very sincerely yours,

W. H. Twenhofel,

Twenhofel, William H. 1911. "Twenhofel, William H. Nov. 24, 1911." *Merritt Lyndon Fernald correspondence*
