

DEN DANSKE ARKTISKE STATION
DISKO, GRØNLAND.

May 30.th. 1919

Prof~~essor~~ M. L. Fernald,

Gray Herbarium

Havard University, Cambridge Mass.

Dear Sir

I rec~~ived~~^{ed} to-day

Contributions from The Gray Herbarium N. S. N. LVI x)
1918 and beg to tender my sincerest Thanks for the sending.

I send a copy of my botanical papers to the Herbarium.
I should be very thankfull if you would spare a copy of your papers on the flora of Labrador or on other subjects of ^cartic and subarctic American Botany. I am working on a study of the affinities and probable origin of the Greenland flora and I have here no access to other libraries than the sma^all ones of the Station and my own.

The Gray Herbarium is probably overstocked with plants from Greenland. If not so, I should gladly send you duplicates of my collections from various parts of the West-coast of Greenland 66-73° and I should also be very thankfull for duplicates of plants from Arctic or subarctic America if such may be ~~xxixkks~~ available.

Very truly yours

x) with later mail also

L VII - LVIII. Lithological Factors.
Arenaria - Alaine

Morten P. Rosend
My best thanks for that acid, but
very cordign medicine to ecologists!

Porsild, Morten P. 1919. "Porsild, Morten P. May 30, 1919." *Merritt Lyndon Fernald correspondence*
