

Dear Dr. Robinson:

I have about finished
the work on the Orizaba plants.
The packages for Coulter & Coville
are on the small table ready
for delivery.

Coville's plants number 422.

Coulter's 487. (See notes in Stamp drawer)

Our own, something like 525-
are in the brown sheets on the
inserted case.

The duplicates you know about.
The ferns for Underwood are on
white paper beside our own
packages. (over)

I put a small package of stuff
up stairs with the indefinite
pile, the worst I throw away
including a few specimens of
Ambrosia &c.

By the way. Should you wish
to refer to the Jones plants
you will find them laid
into a pigeon-hole in the
S.W. side of the Insect
Case.

I shall try to get up to your
house tomorrow evening. Shall
plan to get back from North
next Friday. Cordially
M. R. F.
