Dear Collins:

I send another installment of replies from the hotel question. Norway hasn't been heard from as yet. Personally, this last reply doesn't impress me very favorably. The house sounds cheap; not by any means as good as that of the Oxford Spring House, unless the Norway man sends you bang up letter, I think ~~this~~ for ours. The prices are not so very much different either, while there seems every prospect of much better service at the Oxford Spring Place, and remember prices, it is not much more than usual. Bingham & Rowe Pond cost \$5.00 in hotel fares, & the Oxford Spring House charges would be 10.00 on the two in room 1.25 per day plan. Kittery, the I haven't memoranda here was about 8.00 I think and we got wretched accommodations. I shall write Fellows this week and state the case, probably I shall wait until I hear from you. — I have made most of my drawings for Lath. Muesmiller. The 3rd objection gives 12 and 24 diameters which covers about everything. How much do you advise putting in of the fruiting characters I can easily add peristome & cross section of capsule. I now have plant x2, plant (portion) x12, leaves, areolation, x section lamellae & section enlarged (450). planning to have all reduced $\frac{1}{2}$ in the plate.

Nothungelse doing, save that mother's eyes is bothering her a good deal, and she is in Portland

when she can see the doctor daily, I think nothing
serious is the matter, but I haven't had very defi-
nite reports as yet.

Cordially,

E.B.B.

Miss Brocher writes that she has received from you a
copy of your Rhodora List with both *crispa* marked
with an ink cross for Conn. Has it been actually reported
in Print? I shall let her report both *C. crispa* & *C.*
macmillanii from Maine, according to my own
work later. If there is no printed report from Conn., or
if there is, just set her straight by a postal with you?
