

Charlotte, Vermont.

Jan., 4th, 1878.

Dr. Asa Gray,

My Dear Sir:

Your letter concerning sets
of my plants for your foreign friends was
much received by me. If it is not too late,
I would be glad to send you any of my
plants which you may want, and will
intimate that a return of foreign plants, if
it would not make you too much trouble to
send them, would be more acceptable than
money. Thinking it possible that you may
not care to send abroad some of our species
which extend to Europe, and that some plants
of more or less interest which I have given
in good specimens, but which are either alpine
or subalpine may be acceptable to you for
this purpose, I venture to trouble you with

a list from which you can erase with
your pencil, if you please, those species not
needed.

So Mr. Austin has published (in Bulletin
of Sorey Club) his new *Danthonia*, - *D.*
Texensis; having seen many plants of this growing
in the White Mt. North I cannot think
it anything more than a luxuriant condition
of *D. spicata*; it is not even later than *D.*
spicata, as he supposes, as Mr. Edwin Daxon
and I, when we gathered some specimens of
it, found difficulty in getting good specimens
among the over-ripe plants.

Allow me to join with all good botanists
in wishing you health and a long life and
to remain,

Yours sincerely,

C. L. Dring.

Pringle, Cyrus G. 1878. "Pringle, Cyrus Guernsey Jan. 4, 1878 [Pringle to A. Gray]." *Cyrus Guernsey Pringle letters to Asa Gray*
