

PRINGLE & HORSFORD,  
CHOICE NOVELTIES  
FOR GARDEN AND FIELD.  
NORTH AMERICAN  
PLANTS and SEEDS.

CABLE ADDRESS.

HORSFORD, CHARLOTTE, VERMONT.

MEMORANDUM.

To.....

Charlotte, Vermont, A. S. A., 6, March, 1886.

Dear Dr. Gray,

605. Brickellia Wrightii,

as I have it in my herbarium, and as  
I have distributed it, is all right, sure!  
Of Baccharis Wrightii I got only a few  
specimens, and did not put it in sets. Its  
number is 34. Did these Nos. get transposed  
among your specimens? Depend upon it—  
there can be no other mistake about these two.

I am glad to hear something about Palmer's  
coll. I cannot understand his locality  
"150 miles north of Batopilas," as he writes  
me that he "collected nothing on the route"  
between Parral and Batopilas either going  
or returning (but that would be east of  
Batopilas,) and that he did not travel  
beyond Batopilas. But I must know.

I would have bought a set of Dr.  
Palmer's plants to study, if I could have  
had them in time ~~and~~ and with names.

I am through with my distribution,  
and making preparations ~~to leave~~ for Mex.;  
and already all but two of my sets  
sets are disposed of! a generous support—  
indeed! I believe I ought to make 60  
sets this year, — a monstrous task; — and  
am thinking of taking a second assistant.

I enclose a bit of *Hrikkelia wrightii*,  
(605) as I distributed it.

Yours faithfully,  
C. G. Pringle.
