

Charlotte, Vermont.

8. Dec., 1887.

Dear Mr. Watson,

Your letter of the 2nd inst. brings deep sorrow and perplexity. I am anxious to have later news of Dr. Gray's condition.

Please do whatever you think best with the Gamopetalae of my collection. Loyalty to Dr. Gray forbids our sending them to California, where they would be welcome. With your herbarium and library it would seem that the most of the species might be determined.

I trust my letter to Dr. Gray was opened and read by you. I wish to cancel my indebtedness before setting out on another ~~year~~ journey. Then I shall not be able to take the

field, unless I can find backing.

Dr. Palmer seems to have had  
in the lowlands of Invera a collecting  
season even shorter than mine on the  
mountains.

Yours faithfully,

C. G. Pringle.
