

Charlotte, Vermont.

6. Feb., 1889.

Dear Mr. Watson:

In your note of Jan.,
11th you intimate that you may be
able to take a little time to name
some of my plants. Prof. Sargent-
having taken in hand the ligneous
species, there remain only about
sixty species for which I fail to
find names.

I have made out a list of them,
to facilitate your finding and deter-
mining them. If this is asking too
much of you, don't let me trouble
you; but, if you could possibly find a
day to filling out this list, I could
soon make my distributions and get
into the field again.

Yours faithfully,

C. G. Pringle.
