

Charlotte, Vermont.

31. Dec., 1889.

Dear Mr. Watson:

I have the pleasure to inform you that I have just returned from Mexico in excellent health and bringing material for 50 sets of some 350 species for my next distribution of Pl. Mex.

Considering that I missed getting the spring flora, owing to my very late start, and that I was all the season subjected to hindrances, chiefly on account of the illness or inefficiency of my helpers, I feel considerable satisfaction over my collection, which is now nearly all safely home.

The obstacles referred to prevented my travelling, as much as I planned doing, unvisited regions; yet—I have a great many species which are strange to

me. And I will to ask if I may
at once send you specimens of these
for determination.

Wishing you a Happy New Year,
I remain

Yours faithfully,
C. G. Pringle.
