

Charlotte, Vermont,

13, Jan., 1890.

Dear Mr. Watson:

I was delighted to learn that you are ready for my plants so early. I trust I can be again in the field in March.

Since writing you I have been prostrated with "the grip"; but now I send by express the species intended for sets, having indicated the numbers as far as I know them or can guess at them.

The names of these first, please, for the printer; but they will be followed soon by another large lot of miscellaneous species. Yours sfly,
C. L. Pringle.
