

Charlotte, Vermont.

13. April, 1890 -

Dear Mr. Watson:

I must tell you about
*2595- and *2598. I could not send them
to you for determination, because they went
last year - a few specimens of each - to
Dr. Willrock among a lot of *Erythraea* which
I was supplying to his "Exsiccatae Eryth." On
receiving them he informed me that they
were probably new, and I have been looking
ever since for names for them, indeed have
twice written him about them in vain.

Will you be able to give attention
to my miscellaneous plants of 1888 and
1889? If you do so, you will find among
those of the former year many which you
have this winter determined for me; and
it will be unnecessary to mention them in
your report.

I have ~~just~~ finished making up

my sets, but must wait some two weeks
after shipping them, to get funds for my
journey.

Thanks for your suggestions about my
sending plants to St. Petersburg and to
Australia. I have sent my lists to both
places.

I expect to send a set to Kew; but
have I not sent there nearly sets enough
to pay for the good plants received through
Dr. Gray?

Yours faithfully,

C. G. Pringle.

- + 2432. *Ayous ustula*, n. sp. The variegation of
the leaves is a permanent character, and
makes the plant a very pretty one. It is
much grown in parks and in the courts of
the better houses of Guadalajara -

Pringle, Cyrus G. 1890. "Pringle, Cyrus Guernsey Apr. 13, 1890 [Pringle to S. Watson]." *Cyrus Guernsey Pringle letters to Asa Gray*
