

355 Commonwealth, Avenue, Boston, Mass. Oct. 26, 1921.

My dear Mr. Powell:

I am sending to you under separate cover a pamphlet on arrow poisons that may be of interest for your botanical library. With it I have included four photographs of my economic plant charts that may appeal to you as the position of the orchid family is clearly shown as we place it in the vegetable kingdom. As the photographs were made before the original colored charts were proof read a few errors in the names of the species will be noted. Please overlook these. The main purpose of the charts is clear.

The seventh volume of my orchid book went to press yesterday. As soon as the printing is done a copy will be forwarded to you.

Yours sincerely,

Robert Oakes
